

Part 1 – Agency Profile

Agency Overview

In 1993, the Idaho Department of Commerce convened 45 representatives of economic development groups who supported the manufacturing extension center concept. In 1994, the Governor and ten key economic development entities pledged support for manufacturing extension by signing Idaho's Technology Partnership Agreement. Approval to establish "TechHelp" within the National Institute of Standards and Technology (NIST) Manufacturing Extension Partnership (MEP) was granted in late 1995. In 1996, TechHelp was established at Boise State University and the first director and field engineer were appointed.

Today, TechHelp is a partnership of Idaho's three state universities and an affiliate of the NIST/MEP system. It is also Idaho's Economic Development Administration University Center, targeting economically distressed areas of Idaho. TechHelp specialists have access to cutting-edge knowledge through links to local universities and to a national network of over 2000 manufacturing specialists through the MEP system.

TechHelp's seven manufacturing specialists operate out of offices in Boise, Post Falls, Pocatello, and Twin Falls. TechHelp's primary mission is to provide technical assistance, training, and information to strengthen the competitiveness of Idaho manufacturers through product and process innovation. TechHelp provides internships to students at the New Product Development (NPD) Lab at Boise State University. Internships give university students the opportunity to gain real world experience with innovative Idaho companies and expose Idaho companies to talented young professionals looking to enter the state's workforce.

TechHelp Advisory Board

TechHelp's Executive Director reports to the Dean of the BSU College of Business & Economics, and takes advisement from an Advisory Board made up of representatives from private industry, education, and government. TechHelp Board bylaws state that a full board consists of 9 - 11 members; at least seven of whom are from manufacturing and two from the public sector. The Director appoints non-voting members with approval of the Board.

TechHelp Partners

TechHelp works with state and federal partners, listed below, to meet its mission of assisting Idaho manufacturers. TechHelp also works with local groups such as chambers of commerce and economic development organizations to stay abreast of community development issues and meet the needs of Idaho companies.

Grant Dollars for Operations & Projects	\$1358K	\$1067K	\$916K	\$873K	Exceed prior year

Performance Measure Explanatory Notes:

* The survey instrument for Customer Satisfaction Score was changed in FY 2008.

** The amount of federal dollars expended per surveyable (completed) project is a measure of efficiency. The fewer federal dollars expended per surveyable project, the more clients that a center is serving per federal dollar. The ratio compares TechHelp's federal dollars expended per surveyable project to the median amount for all federal MEP centers across the country. A ratio below the national median (less than 1.0) indicates that TechHelp is more efficient than most MEP centers.

*** Bottom-line Client Impact is a calculation of client sales and savings divided by federal dollars expended. The higher the impact per federal dollar, the more effective that a center is. The ratio compares TechHelp's bottom-line client impact to the median amount for all federal MEP centers. A ratio above the national median (greater than 1.0) indicates that TechHelp is more effective than most MEP centers.
